

Special Issue: Call for Paper

The **2026 World Congress of Electroporation and Pulsed Electric Fields, held in Daytona Beach, United States**, brought together leading experts from across the globe to discuss the latest advances, innovations, and challenges in the **application of electroporation and pulsed electric fields (PEF) in food science and technology, as well as in bioeconomy and biorefinery applications**. To further showcase and disseminate the knowledge generated through this vibrant scientific exchange, we warmly invite all congress participants, together with the broader electroporation and pulsed electric fields community, to submit their latest research and review articles to this special issue.

Keywords

- Food science and technology
- Electroporation
- Pulsed Electric Fields
- Bioeconomy
- Environment
- Sustainability
- Biorefinery

Deadline

31 December 2026

Open access journal

Full APV waiver until 31 December 2026

Guest Editors

Gulsun Evrendilek, Christian Gusbeth, Sze Ying Leong, Indrawati Oey, Xi An Zheng
